I-PEX
Interconnect and Packaging Electronics

DUPLEX CSA

## I-PEX miniature interconnect

The MHF family consists of 5 series of connectors with frequency range DC up to 6 GHz (VSWR: 1.5 MAX). All are available with gold plating for superior performance and allow 360 degree cable mounting. The range offers mating heights from 1.2 to 2.5 mm .

## Major Applications

- Wireless LAN
- Antenna
- Mobile Phone
- Note Book Computer
- Game Equipment
- Digital Appliance
- Access Point

## Features

1. Low cost assemblies made possible by using "i-Fit®"" Technology.
2. SMT receptacle compatible with other leading manufacturers' PCB layouts.
3. Ultra Low Profile: $1.2 / 1.45 / 1.6 / 2.1$ and 2.5 mm high.
4. Frequency range: DC to 6 GHz .
5. Characteristic impedance: 50 ohms

Applicable Cables / Mating Height

i-Fit® Termination: Simple, easy, and speedy solderless cable termination in one operation. Offers consistent high reliability independent of operator.

## Summary

1. MHF is a product range that will help you maximise the use of your equipment space.
2. MHF is a cost effective solution for an RF cable to board application.
3. MHF offers performance, price and process benefits compared to other standard interfaces.

## Duplex Capabilities

RF shielding with or without connectors

Cable assemblies

RF connectors, U-links and adaptors

Fibre
